Powerful Laser Pointer

Model Number: MOUAC-007

About:

The MOUAC-007 is absolutely packed with features. Take for example the powerful inbuilt laser pointer, a fully functioning mouse that can operate at over 10 meters and the stowaway compartment for the mini USB receiver (see picture top right). The top is finished in bright silver but the base is moulded in durable blue plastic to withstand the knocks of everyday use.

The 007 is a real breeze to use making bungled presentations a thing of the past. At last the 007 gives you the freedom to engage with your audience, not with your PC.

Specification:

- RF 3 button Mouse with 360 degree operation
- 11 function buttons
- 64 ID to stop interference
- One touch 'screen blanking' button lets you keep your slide show hidden until the audience is ready.
- One touch 'auto start' button puts your presentation immediately in full screen.
- One touch 'auto stop' button brings you back to presentation design page.
- One touch 'next or previous' page for navigating the slide show.
- On/Off button
- Multi Media switch for sound and track advance
- Pg Up / Pg Down
- Track Up / Track Down
- Esc button (as on keyboard)
